

phoenix go

Now with **NEW** Cognitive AI Assistant: **PoGo AI**

All Specialties. AI Enhanced. Zero Hassle. From surgery to sports medicine to physical therapy, **Phoenix Go with PoGo AI by Phoenix Ortho** is the only all-in-one orthopedic cloud EHR powered by a Active AI Assistant. Built by orthopedic experts, it doesn't just store information—it actively thinks with you. The AI anticipates your workflow, speeds documentation, and delivers real-time insights so you can focus more on patients, not screens.

Everything you need in one complete cloud based software suite - all on one screen with Phoenix Go's customizable and integrated board:

 **Orthopedic-Specific EHR**
Tailored workflows, fewer clicks, ortho-only documentation.

 **Meet PoGo AI**
PoGo AI turns your EHR into an intelligent partner that learns, adapts, and streamlines care.

 **Integrated Imaging**
Built-in PACS, one-click ordering, single sign-on.

 **Practice Management**
Integrated scheduling, billing, RCM, reporting, built-in Clearinghouse.

 **Patient & Clinician Engagement**
Kiosk check-in, mobile/browser access, telemedicine, e-prescribing.

 **Workflow Automation & Support**
AI fax, e-prescribing, teled, training & award winning support.

Flohr, Margaret

Why Practices Choose phoenixgo

All-in-One. Ortho-Specific. Cloud-Powered.

Phoenix Go unites every tool your practice needs — from charting and imaging to billing and scheduling — into one seamless, orthopedic-built platform accessible anywhere.

- **Orthopedic-Specific EHR:** Specialty-designed workflows and templates with fewer clicks.
- **Integrated Imaging:** View and annotate studies directly in the EHR — no switching screens.
- **Practice Management + RCM:** Complete scheduling, billing, and revenue tools in one place.
- **Patient Engagement:** Kiosk check-in, telehealth, e-prescribing, and mobile/browser access.
- **Workflow Automation:** AI fax, auto-routing, and award-winning support.

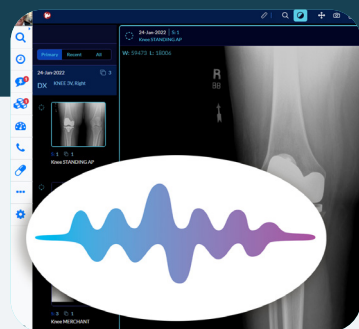

The PoGo AI Advantage

Your EHR, Now Smarter.

PoGo AI transforms Phoenix Go into a cognitive partner that learns, anticipates, and accelerates care.

- Create SOAP notes and treatment plans in seconds.
- Generate outcomes reports with 20+ years of orthopedic data.
- Automate MIPS reporting and compliance tasks.
- Use voice commands to open visits, insert protocols, or dictate notes.
- Boost productivity by up to 75%, even beyond orthopedics.

With **USCDI v3-compliant interoperability**, PoGo AI connects systems seamlessly — no messy interfaces.

The Phoenix Ortho Difference

Two Decades of Ortho Innovation.

Trusted by practices nationwide, Phoenix Ortho builds solutions by orthopedic experts, for orthopedic experts — designed to work the way you do.

- Purpose-built for orthopedics — not generic software.
- Cloud-based and mobile-ready.
- Secure, compliant, and scalable.
- Backed by award-winning support and training.

Transform your clinic with Phoenix Go
